

ENVIRONMENTAL POLICY STATEMENT

Our commitment to Business and the Environment

Wastewise is committed to the continual improvement of its management and operations, providing a quality service whilst controlling and minimising any adverse effects on the environment and public health. The company recognises that it has an environmental responsibility in all activities to ensure that sustainability and the environment are taken into consideration as it operates its business.

Our recognition and acceptance of these responsibilities will be demonstrated by our commitment to:

- Protecting surrounding environments and preserving natural resources.
- Complying with all current, and ensure preparedness for impending relevant, environmental legislation and certification obligations.
- Minimising the negative environmental impacts that may arise through our operations.
- Seeking to satisfy our customers fully by constantly adapting our services to meet their current needs and future requirements and ensuring full compliance with their duty of care obligations.
- Extending our network operations in order to capitalise on our expertise and to exchange best practices with respect to Quality and Environment.
- Making good use of recycled materials from our operations to gain maximum beneficial value.
- Maximising the efficient use of utilities and to minimise waste wherever possible.
- Continually improving the company's environmental performance by setting and reviewing objectives with the aim of improving our service and minimising the impact of our activities.
- Guaranteeing that all employees are trained in accordance with their roles and the work they undertake.
- Ensuring the safety of our employees, our subcontractors and our installations by systematically identifying potential risks and applying the appropriate prevention measures.
- Giving due consideration to the environmental effects of office practices and travel when making purchasing decisions and arranging meetings.
- Reinforcing consultation with our customers, partners, employees - and all other stakeholders - to create a common goal of progress.

Responsibilities

We will work with all our employees in order to achieve the points set out above and provide the necessary training and resource to ensure that our commitments are met. We will also require our suppliers to follow environmental good practice, and encourage customers to do so.

The Board of Directors is fully committed to the implementation of the Policy, which I take overall responsibility for.
