

QUALITY POLICY STATEMENT

Our commitment to our Customers and other Stakeholders

Wastewise is dedicated and committed to uphold our reputation as a leading firm within the recycling and waste management industry, whilst being focused to understanding and meeting the needs and requirements of its customers and other stakeholders.

Operating in a risk-adverse manner, identifying and managing risks and opportunities to the business through established management techniques, the company aims to provide a quality service and minimise any adverse effects on the environment and public health.

It is in consideration of the above that we are committed to a policy of certification to ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 as a firm of assessed capability and the application of business management procedures in an Integrated Management System which complies with these Standards and other identified legal and regulatory requirements.

This Quality Policy and the Integrated Management System will be reviewed and continually improved by internal audits and other management review techniques, implemented using the processes outlined in the Strategy Document and its appendices and detailed in the Operating Procedures. These reviews will assess the effectiveness of the management systems and support the overall Objectives of the business through set action plans and performance measurements.

The Management of the Company is committed to ensure that the requirements of the business management system are implemented, communicated within the Company and maintained.

In addition, the Management is committed to all employees being trained to carry out their responsibilities in a conscientious, safe and effective manner. All employees shall demonstrate a full commitment to quality of workmanship and understand that quality is everyone's responsibility at all levels.

This Quality Policy also ensures the provision to relevant stakeholders of documentary and other evidence, and that the required quality assurance and inspection activities have been carried out to meet all applicable legal and regulatory requirements.

The Board of Directors is fully committed to the implementation of the Policy, which I take overall responsibility for.

Signed:

A handwritten signature in black ink that reads "James Anclau". The signature is written in a cursive style with a large initial 'J'.
